Re: Text Pager Gateway

Hello:

Med-Media has the ability to send text messages to mobile phones. We are interested in using this function to a greater degree for occasional announcements and messages. As with all text messaging standard rates apply as per your service plan. This will act just as any other text message sent to your phone.

Messages received from this system will be addressed as "apache@us1.webcur.com" rather than a phone number. This system is limited to send only and not receive.

If you are willing to receive text messaged from Spearfish Ambulance please complete and return this form.

Thank you

I, _____, agree to allow Spearfish Ambulance to send text messages to my mobile phone, as listed below. I acknowledge these messages are subject to standard rates as per my service plan.

Mobil Number: _____

Service Provider: _____

Printed Name: _____

Signature: _____ Date: _____
